Full intellectual property rights, unrestricted deployment.	<ul style="list-style-type: none"> ▪ No additional licensing fees to be paid - unlimited deployment rights within the organization.
Fixed-price bid model.	<ul style="list-style-type: none"> ▪ No hidden development costs

Designing technology solutions
beyond boundaries

Wholly owned by Government of Malaysia providing venture capital for technology-oriented companies in the South East Asian region.

Customer Requirement:

Development of Venture Capital Management System

Business Problem

The project was undertaken by another ISV and the project had overrun the schedule. Buzznet was called to assist the ISV to get the completion of the project within the deadline proposed by the client.

Solution

- An online internet based system which allows the analysts to create, manage and track the status of the Investment Deals that are currently processed by client.
- Development environment: Java2, IIS 5.5, Broad Vision, SQLServer2000, Microsoft Exchange2000, and Windows 2000 Platform.

Results and Key Benefits

- Managed to develop and implement the application before the scheduled date.

Buzznet Sdn. Bhd.
