The largest private fund manager in Malaysia with funds worth over RM2 billion covering insurance companies, corporate pension funds, unit trusts, government agencies, large corporation and high net-worth individuals inclusive of foreign source funds.

Customer Requirement:

To undertake Application and Data migration exercise

Business Problem

The application and the hardware had outlived its life and the situation was that the client was asked to rewrite the application and change the hardware to the current day server specifications

Solution

- To Move a legacy 4GL Informix application from Informix V5 running on HP-UX to Informix V7 running on Linux.

Results and Key Benefits

- Buzznet assisted the client to reuse the same application by migrating to a newer platform without having to rewrite the application
- Provided 1,200% speed-up of end of day processing (From 3.5 hours to 20 minutes).
- Cost savings were also realized from cheaper hardware costs and savings on annual maintenance.
