Government institution E-Education Solutions Provider.

Customer Requirement:

Development of Smart School Architecture

Business Problem

The client needed a solution architect to design the Smart School Architecture

Solution

- The Smart School project was ready to move beyond the 90 schools in the pilot phase to approximately 9,000 in the roll-out phase beginning 2003.
- Buzznet was invited to lead the Smart School architecture exercise by the Roll-Out Phase Consultant

Results and Key Benefits

- Buzznet's role was to define the Smart School architecture within the context of IT infrastructure, wide-area networking, applications and servers
- Architecture document was delivered in 7 weeks
